

Abdelrhman ahmed mosa

Software Developer

A junior React developer, I am a graduate of a faculty of computer science, junior programmer with proven skills in C++, HTML, CSS, JavaScript, REACT and REACT-NATIVE. I made some applications by ReactNative and I like mobile applications. I focused on keeping a tight architecture in order to minimize errors and bugs. Successfully designed and built several useful apps. I know object-oriented programming, data structures and algorithms. I want to be a good software engineering

EDUCATION

Study Program

Bachelor's Degree in Computer Science and Information Technology (Zagazig University)

10/2018 - 08/2022,

"Graduation project received an 'excellent' distinction."

Courses

- react native (Mobile Applications)
- front-end web

WORK EXPERIENCE

mobile application developer campcoding company

06/2021 - 12/2021,

Achievements/Tasks

- Parking-App (https://drive.google.com/file/d/12td7akOYkiRQdARB0lgQ8t1rfyQkeiHa/view?usp=drive_link) This mobile application is designed to assist garage owners in efficiently managing their parking spaces. It allows for the registration of available parking spots and facilitates the admin, stationed at the garage entrance, to log incoming and outgoing cars by their license plate numbers. The app records the chosen vacant spot along with the respective time and date. Upon a car's exit, the app generates an invoice. Additionally, it provides a daily summary of serviced cars and the revenue generated.
- notes-App (https://drive.google.com/file/d/13-qHbBnLWuU1xvRsqbOWnr3awTvEsGMm/view?usp=drive_link) Developed a notes- app enabling users to create, edit, and delete notes, with real-time timestamps for each action.
- shopping-cart interface (https://drive.google.com/file/d/13nnyvP6o8XnJbyQG4oKRiyMc6sQK-ENS/view?usp=drive_link) Developed a user-friendly shopping interface that seamlessly computes and displays the invoice on the same page. Users can modify quantities, add or remove items, with real-time updates reflecting instantly in the invoice below. This allows for immediate tracking of the total amount while adjusting quantities, offering a flexible and smooth shopping experience.
- menu_App (https://drive.google.com/file/d/14VOd1z4n8CnngtxAeAencRYZh8Ri7MaT/view?usp=drive_link) Developed a menu-based application showcasing multiple sections, with the first section highlighting new items followed by the rest of the menu categories.

SKILLS

C++

HTML, HTML5

CSS, CSS3

JavaScript

REACT

REACT-NATIVE

SQL

Database Management

Communication Skills

Leadership Skills

Time Management

Customer Support

PERSONAL PROJECTS

smart guidance student (10/2021 - 06/2022)

- the app has all of the information about the student
- the student can select his subjects
- the professor can select his assistant
- the assistant can upload the student grades

ORGANIZATIONS

computer science /Zagazig University
